DBU RDi - Tech Support

Installation

RDi Plugin

- 1. Open RDi
- 2. From the menu bar, select **Help > Install New Software...**

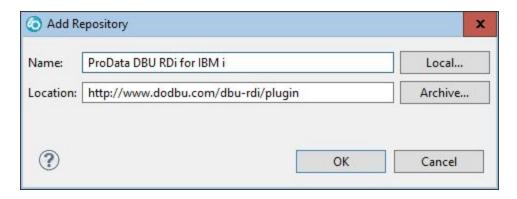

3. Enter the following into the **Work with:** field:

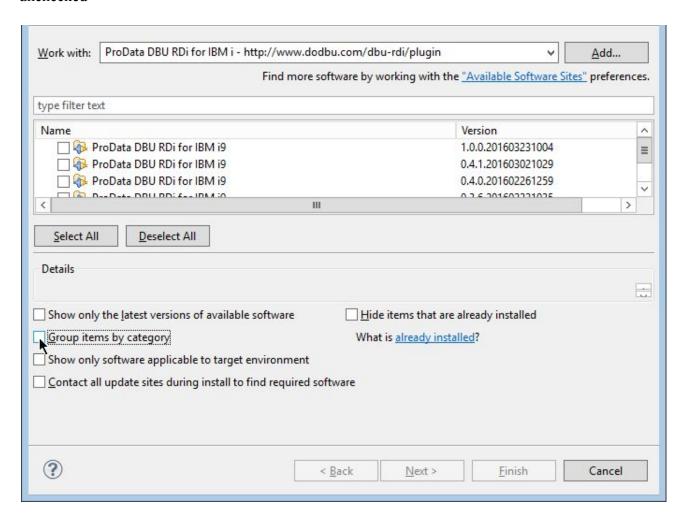

ProData DBU RDi for IBM i - http://www.dodbu.com/dbu-rdi/plugin

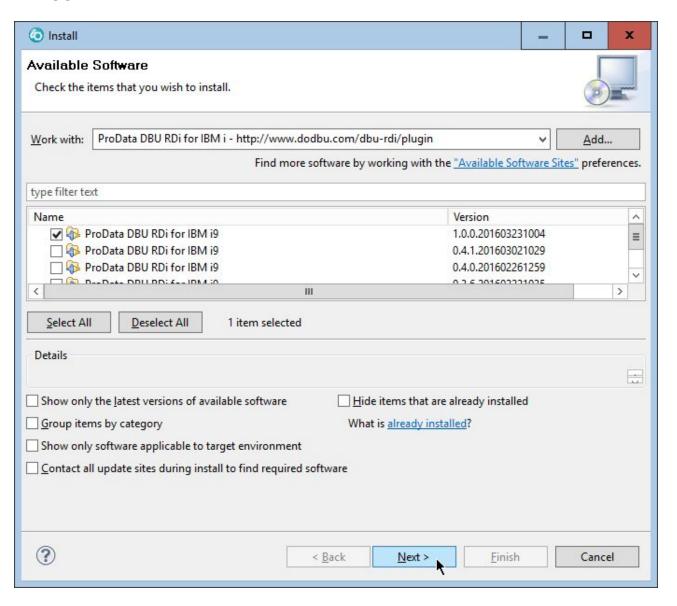

4. Click the **Add...** button and ensure the **Name:** and **Location:** fields contain the following values:

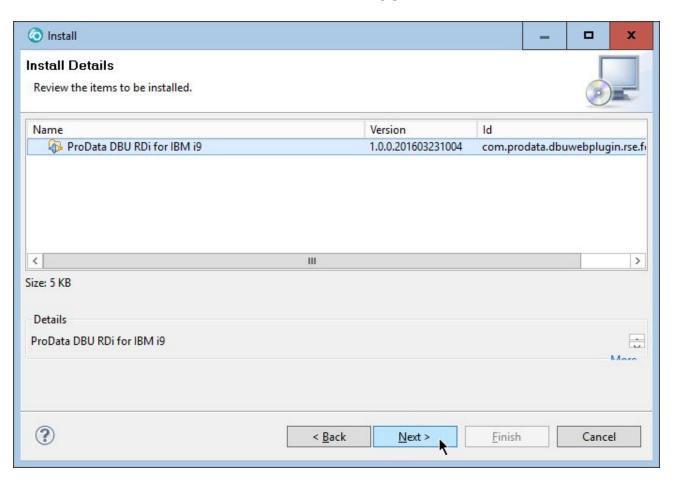

- 5. Click **OK**
- 6. **IMPORTANT:** Ensure the **Group items by category** checkbox below the Details section is unchecked

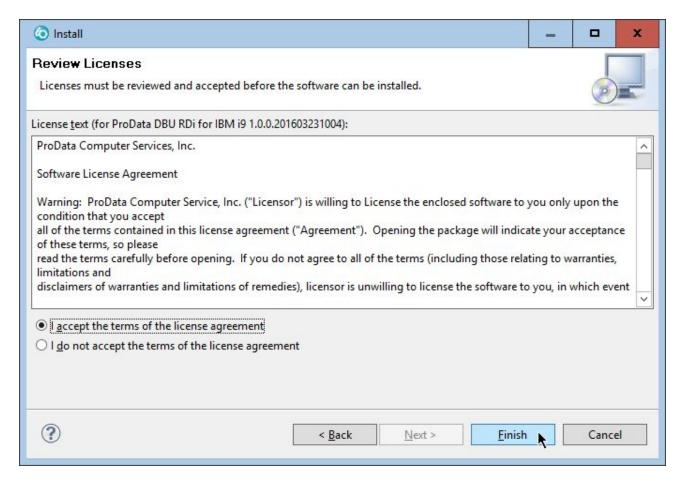

7. Select the checkbox next to the desired version (usually latest, at top) of **ProData DBU RDi for IBM i[9]**, then click **Next** >

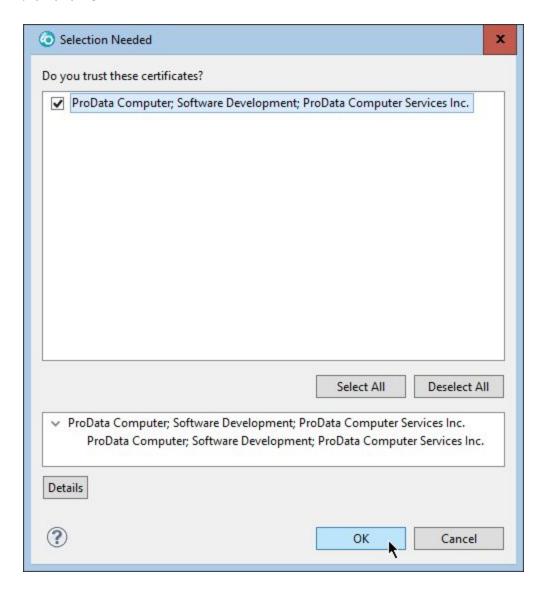

8. In the next window, select **ProData DBU RDi for IBM i[9]**, then click **Next** >

9. Accept the Software License Agreement, then click Finish

10. The final step is to authorize trust of the ProData certificates by checking the available checkbox, then click \mathbf{OK}

11. After a few moments the installation process will be complete and a prompt to restart RDi is displayed - click **OK**

12. When RDi opens again, right-click on an object within Remote System Explorer and select **Open with DBU**
